Author Guidelines - IJSTR

Authors should submit only papers that have been carefully proof read and polished. Before submission please make sure that your paper is prepared using the [IJSTR paper template](#). This will ensure fast processing and publication. Acceptance or rejection notification will be sent to all authors.

The IJSTR invites contribution in the following categories:

1. Original research
2. Survey/Review articles, providing a comprehensive review on a scientific topic.
3. Fast Communications: Short, self-contained articles on ongoing research.
4. Technical Notes

We accept extended version of papers previously published in conferences and/or journals.

Submitted papers **MUST** be written in English, not exceeding 10 double-column pages IJSTR format. An addition of 5 pages is allowed.

Download the paper template. (submitted papers need to be in MS Word format with file extension .doc or .docx)

During indexing process the authors' names as given in the final manuscript will be considered.

Have Village Funds Impact Growth Economy And Poverty Rate?

Aslan, Dio Caesar Darma, Adi Wijaya

This study aims to analyze the influence of exogenous variables (allocation of village funds and village expenditure) directly and indirectly on endogenous variables (poverty rate) through intervening variables (economic growth) in Mahakam Ulu Regency. The study was formed with secondary data and used time series data from the Central Statistics Agency of Mahakam Ulu Regency from 2014 to 2018. The study included a causality study, which explained the interrelationships between exogenous and endogenous variables, both directly and indirectly using path analysis techniques. The results of the analysis of model 1, the allocation of village funds (significant positive) and village expenditure (insignificant and negative) on economic growth. In model 2, the allocation of village funds (significant positive), village expenditure (insignificant and negative), and economic growth (significant negative) on the rate of poverty. The indirect effect proves that the allocation of village funds (negative significant) and village expenditure (insignificant and positive) on the rate of poverty through economic growth in Mahakam Ulu Regency.

Image Of De-Noising Using Linear Mean Filter For Various Block Size

Dr. M. Kasthuri

Digital image processing is a growing technology which helps to enhance the image quality. A linear method for noise suppression using mean filtering with grayscale images of a fixed pixel block size is considered. In this paper, various forms of noise applied to various pixel block size of image perform the de-noising testing do to enhance the quality of the image. The performance measure Mean Absolute Error (MAE) and Pearson correlation are used as the evaluate work. The results were investigated with benchmark cameraman image.

Indicators Survey Of Non-Smoking Area Implementation On School Facilities In Ternate City 2018

Nani Supriyatni, Suharto, Andiani, Imam Rifal Arazy

Non-Smoking Area (KTR) is a room or area that is declared prohibited for smoking activities or activities to produce, sell, advertise and promote tobacco products. Therefore all places designated as KTR must be free from cigarette smoke, sales, production, promotion, and sponsorship. Indonesia government through Law No. 36/2009 concerning Health and government regulation (PP), No. 109/2012 concerning the Safeguarding of Materials Containing Addictive Substances in Tobacco Products for Health, has obliged regional governments to establish KTR in their respective regions through Regional Regulations (Perda). This KTR includes health service facilities, teaching and learning space; children play space, worship space, public transportation, workspace, public space and
