Dear Swandari

Antiasthmatic Effect of *Curcuma aeruginosa* Extract on Isolated Organ of the Trachea  
Paramita S, Moerad EB, Ismail S and Marliana E

Thank you for your submission to *F1000Research*. We have noted a few minor issues with your manuscript (below) – once these are addressed we will be pleased to accept your article for publication.

**Content:** Heavy copyediting has been performed in order to increase the clarity of the article; please make sure that the meaning has been maintained. In addition, I would suggest that there are some instances where more information could be added to make the article clearer – these are marked on the manuscript. We would suggest that the article is copyedited, either by a native English speaker or a professional copyediting service to ensure that the meaning has been maintained.

We feel that your manuscript is missing some information. Referees and readers must be able to verify and replicate your study from the level of detail you give. At *F1000Research*, we endorse the [NC3R's ARRIVE checklist](#) for reporting of animal studies. Please follow the link and go through the checklist to ensure all areas are covered in your manuscript. Track changes in the Word document provide some queries relating to the ARRIVE checklist, but this is not exhaustive.

**Methods:** currently there is a significant amount of information missing from your methods. Referees and readers must be able to verify and replicate your study from the level of detail you give. Please review our comments in the methods and add the requested detail.

We have also lightly copyedited your article - please [download the document](#) and check you are happy with the amendments and then address our queries **using track changes in Word**. Please return your revised manuscript to the e-mail address above. **Please note that this is your final opportunity to make any changes to the content of your manuscript. Once the typeset PDF of your manuscript has been created, we will send you a final PDF proof for checking prior to publication.**

**YOUR REFEREES**

As you know, *F1000Research* operates an author-driven publication model. This means that you will be responsible for suggesting suitable referees, whom we invite on your behalf, giving you an opportunity to ensure that appropriate experts referee your article. Our transparent peer-review process means that the referee report, together with the referee's name, will be published alongside your article.

We will need at least 5 suitable referees before we can publish your article, so we recommend identifying them now, if you have not done so already. Click to access [My Referees](#), to enter your suggestions and/or use the Find Referees tool that will analyse your manuscript and suggest a list of referee candidates based on its content.

Please remember that they should have an appropriate level of experience and the right expertise to judge your article; they must be able to provide an unbiased report (e.g. they must not be recent collaborators or colleagues in your institute). Suggestions are checked by the editorial team and rejected if they do not meet these [criteria](#).

**PAYMENT**

As *F1000Research* is open access, we will require payment of the Article Processing Charge (APC) to be able to complete the processing of your submission. As your article is currently classified as a short-length article, the APC is \$150. Please provide us with the name, postal address, e-mail address and VAT number (if applicable) of the person or single organization taking responsibility for making this payment. Please also let us know which currency you prefer to pay in (USD, GBP or EURO). Our Accounts department will be in touch regarding payment.

**RETURNING YOUR REVISIONS**

Please return your revised manuscript to the e-mail address above. In order to avoid any delays, please submit your revisions **using track changes in Word**. Please note this is your final opportunity to make any changes to the content of your manuscript. Once the typeset PDF of your manuscript has been created, we will send you a final PDF proof for checking prior to publication.

Best wishes,

James  
The Editorial Team, *F1000Research*

Dear James  
The Editorial Team of F1000 Research

Thank you for the email. We have addressed the issues with our manuscript. We also send detail for the Article Processing Charge (APC). We have returned our revised manuscript to the e-mail address above. Our revision submitted using track changes in Word, with the title "Antiasthmatic Effect of *Curcuma aeruginosa* Extract on Isolated Organ of the Trachea" (Paramita S, Moerad EB, Ismail S and Marliana E).

Best regards,  
Swandari Paramita

Dear Swandari,

Thank you for the return of your revisions. We have now gone through these and have noticed some remain issues in the text that we have indicated with comments. Please review our comments and return your manuscript once these have been addressed.

Best regards,

James
