to me

Dear Dr. Jiuhardi,

We would like to inform you, Regular reviewing process takes 2.5-3 months and the article processing charge is 995 EURO which will ask after acceptance. But if you are in hurry, you can request for fast reviewing option which takes about 10 days (In this option the journal APC will increase to 1495 Euro (995 + 500 Euro) due to the cost of the reviewers).

** It is important to pay attention there is not any guarantee to accept the articles with a fast option.

Regards,

Office ESJ

to me, Fitriadi, Arfiah, Yana, Yundi, Erwin, Dio ▾

Dear Dr. Jiuhardi,

We have reached a decision regarding your submission to Emerging Science Journal, "Using Correlation to Explore the Impact of Corona Virus Disease on Socioeconomics: Case Studies in Indonesia*".

Our decision is to: Revision Required.

Please consider reviewer's comments, and revise that as soon as possible. If you do not submit the revision file, the article will be withdrawn within 20 days.

When you revise your manuscript please highlight the changes you make in the manuscript by using the track changes mode in MS Word or by using bold or colored text.

** Please upload the revised version into your user home> Review tab> Author Version.

Regards,

Editor: Dr. Omid A. Yamini

Editor@ijournalse.org

Reviewers' Comments:

Reviewer #1:

The topic is interesting and important. However, there are several key areas that need more work prior to publication. I have summarized the required changes in the hope that the feedback will be useful to you as you update the paper. I am not able to consider your manuscript for publication at the present time, but I hope you will consider the feedback provided by the following suggestions to revise your manuscript and re-submit.

1- The authors should ask the help of native English speaking proof reader, because there are some typo and linguistic mistakes that should be fixed.

2- More suitable and general title should be selected for the article.

"Case Studies in Indonesia" should be deleted from the title. Title should contain 10-12 words.

3- The introduction is poorly written and it does not properly refer to previously published studies. The authors need to carefully review the published literature, identify the gaps in the literature, and propose their approach to fill the gap.

4- Reference method in the 3rd column of table 1 should be modified. E.g. before: "[57]"; after: "BPS Statistics – Indonesia (2022) [57]".

5- Do not use "A publication by [14] states....", "[15] concludes the....", etc. phrase into the literature review. Authors must cite the references properly. For example:

Before: [15] concludes the

After: Sanchez & Achilli (2020) concluded the [15].

6- A flowchart should be added to the article to show the research methodology.

7- It is suggested to present some of the results of the study as charts and graphs.

8- It is suggested that the conclusion section be much better organized.

This section should be presented in one or two 250-300 word paragraphs.

Reviewer #3:

The article is well established and also authors present valuable results. In my idea it could be published with major revision. Authors should add more interpretations for the results. Some comments which could be help to improve the article are presented.

Comment 1: The manuscript needs language, grammar and syntactic editing. The English language usage should be checked by a fluent English speaker.

Comment 2: The major defect of this study is the debate or Argument is not clear stated in the introduction session. Hence, the contribution is weak in this manuscript. I would suggest the author to enhance your theoretical discussion and arrives your debate or argument.

Comment 3: Page 5: the following paragraph is unclear, so please reorganize that:

"We applied statistical evaluation using a parametric and non-parametric correlation approach [61, 62]. The two softwares include Microsoft Excel and SPSS for processing time-series data. The construct process was reviewed by comparing the correlations, namely Pearson, Kendall's, and Spearman's [63].".

Comment 4: Especially, the introduction section needs to re-organize. The major debate or Argument is not clear stated in the introduction session. Hence, the contribution debates are weak in this manuscript. I would suggest the author to enhance your literature discussion and arrives your debate or argument.

Comment 5: Please make sure your conclusions' section underscore the scientific value added of your paper, and/or the applicability of your findings/results, as indicated previously. Please revise your conclusion part into more details. Basically, you should enhance your contributions, limitations, underscore the scientific value added of your paper, and/or the applicability of your findings/results and future study in this session.

Technical Editor Comments:

- If one of the referees has suggested that your manuscript should undergo English revisions, please address this issue during revision. We propose that you use one of the editing services listed at <https://www.euhara.org/language-editing-services/> or have your manuscript checked by a native English-speaking colleague.

to Office ▾

Dear editors. We really appreciate all the recommendations you provide. We need to inform that one of our colleagues is currently infected with Covid-19 with severe symptoms, thus requiring hospitalization. For that, can we get extra time to revise the manuscript? In addition, we will also make improvements to the proofreading assisted by outside professional services. Please understand and thank you.

Best wishes,

Dr. Jiuhardi

Dear editor-in-chief.

We have made payments based on the journal conditions. One of our colleagues (Mr. Dio Caesar Darma) has done it successfully. You can download the APC proof. After this, can we get LoA? And what is the process for further publication of the manuscript? Don't hesitate if you have any questions.

Best wishes,

Dr. Juhardi Juhardi

Dear Dr. Juhardi,

Thank you for the email.

We would like to confirm that we have received the payment successfully.

Please send a separate email on Monday and request for LoA.
