Acceptance rate

Article processing charge

The APC (Article processing charge) is paid once, only if the manuscript is accepted for publication after being peer reviewed (Business Perspectives does not use submission or review charges).

The article processing charge (APC) ensures the full immediate access to the article on the publisher's website (without registration on the site and embargo period). The APC covers the costs of publication process (copy editing, formatting the text, to compose the figures and tables, etc.) including the administrating of peer-review process, the permanent archiving of the articles, site administrating (hosting the files of the articles, maintenance and support of the site), the promotion of the journal and articles (to share the journals content all over the world, serve the indexing services, etc.) and customers support.

Article processing charge for "Economics of Development" for the authors with affiliation in [high-income countries](#) or [upper middle-income countries](#) is 55 €, APC for the authors with affiliation in [lower middle-income countries](#) 30 € and APC for the authors with affiliation in [low-income countries](#) is 15 €. Please request an invoice (or information about other methods of payment) from a Managing Editors or follow the link to [Pay online](#).

If the size of the manuscript exceeds the established limit (6000 words) then authors should contact a Managing Editors to elaborate on publication details.

Please pay attention that LLC "Consulting Publishing Company "Business Perspectives" can't receive payments from high-risk and non-cooperative countries. The jurisdictions list <http://www.fatf-gafi.org/countries/#high-risk>.

During the publication process, authors can order a printed copy of the issue from a Managing Editor for 200 €.

Discounts

In order to enhance the publishing opportunities for authors from low-income countries, the Publishing Company provides a system of partial compensation of [Article Processing Charges](#). The Publisher also offers personal discounts for some authors from these countries. In such cases the author should apply to the Publisher with a fully substantiated request concerning both discounts for APC or for a free publication. Such an application is considered in each case individually.

ABSTRACT

The advantage count as to finance the need for cash that unexpected. We explore to investigate the effect of corporate governance on cash holding by systematic risk as a moderating variable. This study analysis model uses Moderation Regression Analysis. The population of this study was 67 property and real estate sectors listed on the Indonesia
