Manuscript Title:	Emiten Stock Price of Pandemic Covid 19 in Stock Market Performance
Evaluation Report	
General Comments	This paper focused on Covid 19 impact to the perceptions of investors. It will be an interesting study if the authors could revise some fatal disadvantages as I suggested.
Advantage & Disadvantage	Disadvantage : 1.Paper tile is not proper. 2.Literature is too concise. 3.Some variables definitions are unclear.
How to improve	<ol style="list-style-type: none"> The title of the paper is not proper! Emiten Stock Price..... The paper is quantitative study not a qualitative study as the authors claimed in the text because they used semantic analysis questionnaire. Please correct the wording throughout the whole paper. Add in some Semantic scale research and application literature in stock market. In Table 1, these 19 variables indicators should be listed and furtherly explained in the paper. We cannot understand what the authors discuss about in Chapter 4 if those indicators are not fully stated. X11 to Y15 should be denoted in detail. The definitions of GMS, IDX,FAC,SP,CO19,KPM,HSE,DPC etc.???? In Chapter 4, the authors using <u>Model Summary and Coefficients</u> as the beginning of the sentence is wrong. Please correct it.
