Professional Academy Digital Talent Scholarship 2022

Pelatihan Machine Learning with TensorFlow sejumlah 216 jam pelatihan

1. Python
2. Math - Linear Algebra
3. Intro to TF AI ML DL
4. Math - Multivariate Calculus
5. Convolutional Neural Network
6. Natural Language Processing TF
7. Sequences, Time Series, Prediction
8. Structuring Machine Learning Projects
9. Browser-based Models with TensorFlow.js
10. Device Based model in TF Lite
11. Data Pipelines with TF Data Services
12. Math - Principal Component Analysis
13. Advanced Deployment with TF
14. Final Exam
15. Exam Certification
