

REVIEW FORM

Article Number	SJIE-20280			
Title	The Flip Side of Economic Growth – Predictions From Indonesia.			
Criteria				
Criteria	Excellent	Good	Poor	Comments
Title		v		Good title
Abstract		v		Abstract consist of 100-150 words. Abstract must contains the following information: a. Research originality b. Research objectives c. Methods d. Result e. Practical implications. Authors had revised the abstract.
Keywords		v		Add the JEL Classification Authors had put the JEL Classification
Introduction			v	Authors must add more previous studies in introduction. The introduction must explain clearly about the research gap and novelty from this manuscript. This journal do not use review of literature as separate section (please read the authors' guidelines of the journal). The literature review can move to introduction (to support the research gap & novelty) or discussion (to strengthen the analysis). It is not appropriate put the hypothesis in introduction. Please delete the hypothesis & figure 3 in introduction.
Methods		v		Simplify the explanation about the method. I think the Table 1 can be deleted from method section. Please delete the word "and procedure" in sub-title.

Result & Discussion		v		Authors can add more depth analysis in the discussion to strengthen the analysis, especially from update references. Authors had revised this section
Conclusion			v	The policy recommendation from this research is not clear.
Topic and level of formality appropriate for audience			v	State clearly about the novelty of this research in introduction State more clearly about the novelty in the last paragraph in introduction.
Citations & References			v	Make sure all the citations had include in the references. Please change the out of date references (such as: 1981, 1994, etc) with more update references. Please add more update references in the last ten years.
Supporting data and material		v		Please make sure all the tables and figure had been explained in the text. Please check again the figure in this manuscript.
Language			v	Please use proofread to check your language Have you use native proofread for the English editing? Because we still found some typing error in this manuscript.

Recommended Changes
