Dear Dr. Agustina,

Thank you for your interest in publishing with us. However, the manuscript does not respect the AAACL formatting requirements. Please find the model on our website and replace each section with your text, **leaving the footer exactly as it is, including the page numbering**.

I will be your editor and I will stay at your disposition for all the aspects concerning your manuscript.

The editorial team will assess your manuscript and I will get back to you as soon as possible with the result.

Dear Dr. Agustina,

Thank you for your e-mail. However, the formatting is still not respecting the the AACL requirements. As mentioned before, please simply copy each section of your text in the model from our website, **leaving the footer exactly as it is, including the page numbering** (please do not add a footer in another word document, because it is not the same, use our model as a template). Also, many parts of your text is highlighted with a light grey, the logo is missing... Please remediate these issues.

Thank you for your cooperation.

Dear Dr. Eni Kovacs,

I have followed your advice in the writing format as required by AACL BIOFLUX. Only I apologize about the sentence highlighted in light gray, not visible in my computer. Please help to give a sign regarding this.

Thank you for your attention and help.

Dear Dr. Agustina,

There seems to be a problem with the attachment, the text is still highlighted with light grey and there is no footer.

Thank you.
