Reviewer A:

Title of the Manuscript:
An Exploration Respond of Vaccination Policy through Social Media in Indonesia

PART 1: Review Comments

Compulsory REVISION comments

I recommend this article to be put in the next issue of PGR after the author answer address or answer some of my concern. 1. At the background, author does not mention the period of the COVID-19 case. 2. There is no practical and academic contribution in this study, please explain! 3. Be consistent, what is the purpose of the study, check it at abstract, background and conclusion, it is slightly different! 4. I assume literature review will be ended with either a research gap or frame work that help the analysis, if it is possible please also put theory to help reading the findings. 5. There are so many discussion to whether social media can reflect public and therefore we as a researcher get voice not noise, how you overcome it? Thank you Regards
