Dear Piter

I am pleased to inform you that your application for ASEG Active - Group I & II Countries - 5 Year Membership has been reviewed by the Federal Executive and your membership has been approved. On behalf of the Society, I welcome you to the Australian Society of Exploration Geophysicists.

This year the ASEG has introduced a 5-year membership, please let us know if this membership type is of interest to you.

As a benefit, you will receive both of ASEG's publications, **Preview** and **Exploration Geophysics** electronically. There will be no postage surcharge added to the membership fees for any membership group for hard copies.

As a member, you have the opportunity to participate in the activities of the Society through conferences, technical meetings, committees and journals. We would value your technical contributions to **Exploration Geophysics** and **Preview**. Your thoughts, views and potential participation would also be appreciated in the various committees that address issues from education, research, and other areas that challenge your profession. Please consult the website [www.aseg.org.au](http://www.aseg.org.au) for further information about the activities of the Society.

From January 2019 Taylor & Francis will be our new publisher for Exploration Geophysics and Preview and all members when renewing online will be requested to grant the ASEG permission to provide Taylor and Francis with their email and postal addresses. Taylor & Francis have given an undertaking not to use the member list for any purpose other than advertising and distributing Exploration Geophysics and Preview.

All members wishing to continue to obtain online access to the Exploration Geophysics will be asked to consent to the publisher's standard terms and conditions of online supply and understand that member access to Exploration Geophysics is on a member's private use only basis and it shall not be networked to any other site, library or public website.

As you applied for your membership on the ASEG website you should already have your login details, which will now allow you to log into the ASEG website, access your membership profile and make changes to your details whenever you like.

If you have any difficulties logging in or queries regarding your membership of the ASEG please feel free to contact me via email or telephone.

Welcome to the ASEG!

Yours sincerely  
Alison
